PROFESSIONAL SUMMARY

Results-driven IT professional and Full-Stack Developer with a BSc (Hons) in Business Computing and Information Systems. Experienced in SOC Analysis and Network Engineering, with a strong focus on cybersecurity and systems integration. Proficient in developing robust mobile and web applications using React, PHP, and SQL, and dedicated to automating business processes for efficiency and growth.

EDUCATION

BSc (Hons) Business Computing and Information Systems

Graduated 2024

University of Central Lancashire

EXPERIENCE

SOC Analyst

Nov 2024 – Mar 2025

BIM Group of Companies

- Monitored network traffic and analyzed security logs to identify and mitigate potential vulnerabilities.
- Assisted in incident response protocols and security reporting to ensure infrastructure resilience.

IT & Network Engineering Intern

2024

Infrastructure Projects

- Configured and deployed Cisco and Huawei network hardware, including routers and switches.
- Provided technical support for fiber optics, Wi-Fi installations, and CCTV surveillance systems.

TECHNICAL PROJECTS

NaAtta Blood Donation Platform: Built a full-stack donor management system and mobile app using React and PHP/SQL to modernize local donation tracking.

Offline-First Karaoke Manager: Developed a React Native application with Expo and SQLite for offline catalog management and data synchronization via Excel.

E-Commerce System: Designed a computer and accessory retail platform featuring a customized database schema and responsive frontend for a university capstone project.

CORE SKILLS

Development: React, React Native, PHP, SQL, Flutter, JavaScript (ES6+), Expo

Networking & Security: CCNA/Network Configuration (Cisco, Huawei), SOC Analysis, CCTV/Fiber

Professional: Agile Methodologies, Project Coordination, Business Process Automation

LANGUAGES

English, Burmese, Japanese (JLPT candidate), Jinghpaw, Hindi.
